BAGOE'S

SAPO OLIVÆ PRÆPARATUS

A SUPERIOR QUALITY OF GREEN SOAP,

For the Local Treatment of

Chronic Skin and Scalp Affections.

Has been prescribed by almost every prominent Dermatologist since 1880. Unlike the more or less offensive and unreliable varieties of German green soap, it is made from cold-pressed Olive Oil, and owes its green color entirely to the chlorophyll of the Olive, is of unvarying alkalinity, wholly free from unpleasant odor, homogeneous, and entirely soluble in strong or dilute alcohol.

A 50 per cent. solution in alcohol forms an elegant and widely prescribed shampoo for Dandruff and chronic dry eruptions of the scalp.

Proper Food For Infants

IS BETTER THAN MEDICINE.

In Horlick's MALTED MILK the physician will find a pleasant and healthful diet for his infant patients, a food which contains all the nutritive elements in pure, fresh, sterilized milk and malted grain, but is free from starch, cane sugar, or other indigestible or harmful ingredients. Its form is a dry, white powder, soluble in water and requiring no cooking or addition of milk to prepare it for use. Malted Milk will not curdle in the stomach like raw milk, because the milk it contains is peptonized by a natural vegetable ferment, plant pepsin, developed from the grain by our special process of malting, originated and used only by us.

Kindly compare MALTED MILK with what you are now using and let us prove and support the above statements by sending samples for trial, without charge and prepaid.

GOOD REASONS

FOR DISCARDING COD LIVER OIL.

Physicians who have kept abreast of modern progress are fast discontinuing the use of Cod Liver Oil. They have learned by sad experience that its disturbing effect on the digestive organs more than offsets any good that could result even were it all absorbed.

Starchy foods are nature's source of fat.

Free oils are not a natural food.

Unfortunately starchy foods are very frequently indigestible to those who most need fat; hence it is that scientists have long been at work toward the preparation of a pre-digested starchy food which would be quickly absorbed without further change in the stomach or intestines.

Such a food is now at the disposal of the medical profession under the name of PASKOLA.

PASKOLA is not only a pre-digested starch, but it contains the ferments essential to the digestion of other foods, and is therefore at once a food and an aid to digestion.

PASKOLA is pleasant to the taste. It needs no cooking. It is retained by the most delicate stomach. When nothing else will nourish, "PASKOLA" is readily absorbed.

If you have patients who are weak and thin and want to get strong and fat, there is only one thing for you to do—prescribe food that will nourish their body, no matter how sick they may be, and that food is PASKOLA.

Descriptive pamphlets will gladly be supplied on application to

REMARKS ON

"COMPOUND TALCUM"

"BABY POWDER."

The Hygienic Dermal Powder for Infants and Adults.

TALCUM, the Silicate of Magnesia ($4\,MgO.\,5SiO_2 + \frac{1}{2}HO.$),* although known in olden times, as far back as 2200 years ago, when that immortal Greek scientist and naturalist, Theophrastus (370–286 B.C.), in his venerable work on "Stones," described it, was, up to the present days, entirely overlooked by therapeutists and never used by dermatologists. Strange to say! Only in the year 1868 it was the good fortune of the writer to be induced by peculiar circumstances to make researches in the pharmaceutic realm for a dermal application which might be acceptable to the medical profession in the treatment and prevention of skin affections. In these researches Talcum was also experimented with, which proved to be the very substance looked for. Further investigations showed that, with the addition of carbolic acid, a preparation was produced most efficacious in preventing erythema intertrigo and in curing the same in very severe cases.

Besides, the "Compound Talcum" is indicated in cases of minor Exanthemata, viz., urticaria, roseola. In Papulæ, viz., lichen simplex, lichen tropicus, strophulus, etc. In Vesiculæ, viz., eczema, herpes, crusta lactea. In Pustulæ, viz., ecthyma, impetigo. And, further, in Dermatopathia of parasitic origin, viz., scabies favus, sycosis, tinea decalvans, tinea circinata, chloasma versicolor. And, lastly, in the treatment of Exanthemata Majores and zymotic diseases.

Refraining from producing any testimonials, the writer deems every physician perfectly able to judge for himself of the therapeutic value of the Compound Talcum.

Respectfully,

JULIUS FEHR, M.D.,

UNIVERSALLY PRESCRIBED.

It is sought to introduce this invaluable therapeutic agent exclusively on its merits, and for that reason the Profession is appealed to only through the columns of Medical Journals.

Hydroleine is a purely *scientific preparation* for the cure of *incipient consumption* and all forms of *wasting disease.* Its *formula* is well known, and it has the indorsement of LEADING PHYSICIANS throughout the United States. The therapeutic value of this *invaluable curative agent;* its unquestionable success and its *perfect reliability* in cases of *emaciation* occasioned by a *decay of the vital tissues*, makes the prescribing of **Hydroleine** one of the necessary requisites of the successful practitioner. This great remedial agent is *thoroughly palatable*, is *easily digested:* it produces rapid increase in *flesh* and *strength* and at once inspires the patient with a *substantial hope of recovery.* This is assured by the *fact* that the *vitalizing principle* underlying **Hydroleine** is to *arrest decomposition in all its stages.*

HYDROLEINE has for the basis of its formula pure Norwegian Cod Liver Oil. One teaspoonful of this preparation will give more satisfaction than three teaspoonfuls of the many usually prescribed emulsions. Sold by druggists generally.

Entered according to Act of Congress, in the year 1894, by Daniel Lewis, in the Office of the Librarian of Congress, at Washington, D. C.

PREFACE.

In the preparation of this (ninth) volume of the MEDICAL DIRECTORY the editor is under renewed obligations to the members of the profession who have supplied the necessary data with unusual care. Absolute accuracy can only be attained by the co-operation of the physicians.

Additional material from Brooklyn has been added, and it is hoped that in 1895 the list can be made as complete as from this city.

Attention is especially directed to the fact that membership in *local medical societies* only is published, with the single exception of the Medical Society of the State of New York, under whose jurisdiction all county societies are organized.

Pharmaceutical Preparations,

INCLUDING

Fluid and Solid Extracts, Elixirs, Syrups, Ointments, and

Soluble. ∴ Coated. ∴ Pills.

Comprising all the Officinal Pills of the Pharmacopœia.

Unequalled in regard to Purity of Composition,
Solubility of Coating, Uniformity in Size,
and Perfection of Form and Finish.

NO argument is required to convince the intelligent physician that purity, uniformity, and conscientious adherence to acknowledged standards are necessary if manufactured medicines are to be used. In other words, *the physician's success and reputation are dependent, to a great extent, upon the reliability of the medicines he prescribes.* It is important, therefore, that due care should be exercised in the selection of preparations which are above reproach, and physicians in prescribing should be particular to specify those which they find from tests to be as represented.

Conscientiously appreciating the responsibility involved in manufacturing goods of this character, we employ every safeguard against error that thought and experience can suggest, and assure the profession that they may prescribe our products with as much confidence as they would those made by their most trusted pharmacist or by themselves.

W. H. SCHIEFFELIN & CO.

In prescribing, be particular to mention Schieffelin.

SOMATOSE

An Albumose Food Product

Somatose is a preparation of meat, and consists essentially of albumoses, with only a minimum amount of peptones which have slight nutritive value. It is an odorless, light-yellow powder, readily soluble in water, and contains the nutrient salts of fresh meat. Somatose is useful in febrile diseases, gastric affections, phthisis, anæmia, rickets, etc. Supplied in two-ounce, quarter, half, and one pound tins.

PIPERAZINE-Bayer

Antilithitic and Uric Acid Solvent

For Lithiasis, acute and chronic gout, and the uric acid diathesis generally, no remedy has succeeded so well as Piperazine. In Renal Colic and Hematuria also it is efficacious. Piperazine-Bayer is made by a new process whereby its cost is greatly reduced. Piperazine-Bayer is supplied in half and one ounce vials, also in tablets. In painful conditions it may be combined with Phenacetine-Bayer.

TRIONAL

Hypnotic and Sedative

Trional is a nerve sedative and hypnotic which has given very satisfactory results in cases not benefited by other drugs. It is valuable in simple agrypnia, in mental excitement and delirium accompanied by obstinate insomnia, and in narcotic habitués. It acts promptly, safely, and effectively. Where pain is present Trional may be given conjointly with Phenacetine. Dose, 15 to 30 grains. Supplied in ounces.

DR. SAVAGE

Physical Development Institute

LIMITED,

308 and 310 West 59th Street,

NEW YORK CITY.

WATSON L. SAVAGE, A.M., M.D.

Medical Director.

Office Hours, 9 to 12 A.M , 2 to 6 P.M.

FOR ALL AGES, BOTH MALE AND FEMALE.

THE aim of this institution is implied in its name—Physical Development! Development for one grand object, namely,—Health! Not to accomplish some great feat of strength, but to prepare and keep us in condition to perform our daily duties and obtain the maximum amount of enjoyment.

All the work is under the personal supervision of Dr. Savage; every patient is examined by him before beginning the work, and his or her exercises exactly prescribed.

The Doctor has no family practice whatever, being a specialist in the strictest sense of the word. The institution is for the treatment of any case the physician may believe would be benefited by exercise carefully and intelligently prescribed. The weakest patient may be sent here with confidence.

Special room for cases needing constant individual treatment.

Massage Treatment administered.

The members of the Medical Profession are earnestly requested to call and inspect our work.

Private Lessons in Boxing and Fencing.

EIGHT BOWLING ALLEYS TO RENT TO PRIVATE CLUBS AND FOR PUBLIC USE.

MEDICAL SOCIETY OF THE COUNTY OF NEW YORK, 1894.

DIABETIN—SCHERING.

The only innocuous and palatable sugar to be used in diabetes, possessing the particular advantage of being a nutriment to diabetic patients. Diabetin is highly indorsed by Professors Ebstein, Kuelz, Leyden, and others.

DIPHTHERIA-ANTITOXINE-SOLUTION—SCHERING.

Prepared in the bacteriological division of the "Chemische Fabrik auf Actien, vormals E. Schering" under the supervision of Hans Aronson, M.D. Schering's Antitoxine-Solution is a clear, colorless liquid, about twenty times stronger than the so-called Behring's normal serum. For the positive immunity against diphtheria, a single injection—by means of a sterilized syringe—of 1 ccm. (1 Grm.) is sufficient for children and adults. For smaller children ½ ccm. (½ Grm.) will suffice. The injection affords instantaneous protection and is effective even in the stage of incubation.

FORMALIN—SCHERING.

An ideal germicide, disinfectant, deodorant, and antizymotic, having the same germicidal power as corrosive sublimate without its toxicity. Invaluable in the disinfection of the sick-room, furniture, clothes, books, brushes, etc.

RUBIDIUM IODIDE—SCHERING.

Recommended by Profs. Neisser, Von Mering, Bunge, and others as a substitute for potassium iodide. Rubidium Iodide is well borne by the stomach and does not affect weak hearts, while being just as effective as the potassium salt.

TRIKRESOL—SCHERING.

Unlike creolin and lysol it contains the cresols—ortho-cresol, meta-cresol, and para-cresol—in a pure state, and is always of uniform 100 per cent. strength. It is a water-white, clear liquid of pleasant, creosote-like odor, and dissolves in about 40 parts of water, which proves that it is absolutely free from neutral oil, naphthalene, etc. Trikresol will not corrode metals. Trikresol is cheaper than the impure cresol products, creolin and lysol, considering the active component parts of cresols in the former.

CREOSOTE CARBONATE (Creosotal)—VON HEYDEN.

The best form of beechwood creosote, devoid of its harmful properties. It contains 92 per cent. of the purest beechwood creosote in chemical combination with 8 per cent. of carbonic acid. Its action is non-caustic and non-irritating to the mucous membrane of the digestive organs, contrary to that of creosote, and it will agree perfectly with the most sensitive patients.

PHENOL and BETA-NAPHTHOL BISMUTH—VON HEYDEN.

Have been used with great success by Prof. Von Nencki, Drs. Jasenski, Schubenke, Blackstein, and Petkewitsch in the treatment of acute and chronic gastro-intestinal catarrh, acute proctitis, bacillary diarrhœa, etc.

TRIBROMPHENOL BISMUTH—VON HEYDEN.

Has been recommended by Prof. Ferdinand Hueppe, who found it superior to calomel as a specific against Cholera Asiatica. In grave cases the kidneys returned to their normal condition almost completely when Tribromphenol Bismuth was used. Tribromphenol Bismuth is an excellent intestinal antiseptic in diarrhœa, dysentery, colitis, typhoid fever, etc.

CASWELL, MASSEY & CO.'S

QUININE CHOCOLATES

(REGISTERED IN U. S. PATENT OFFICE.)

THE Chocolate used in the preparation of these tablets disguises the bitter taste of the Quinine without in the least impairing its therapeutic value. They are suitable in the entire range of conditions where Quinine is indicated, but are especially recommended in the subacute and chronic forms of malaria, characterized by headache, neuralgia, loss of appetite, and general *malaise*. They are quite palatable to children, and, for this reason, will be found invaluable in entero-colitis and other spring and summer complaints; or as a restorative tonic in all cases of debility. The Chocolates are unequalled as an elegant and reliable prophylactic for persons residing in or passing through malarial districts. Each tablet contains one grain of tannate of quinine; the dose, therefore, ranges from one or two daily, to a dozen or more, repeated as often as necessary, according to circumstances, or as directed by a physician. Retail price, 50 cents per box.

MEDICAL STUDENT EXAMINATIONS.

FROM LAWS OF 1893, CH. 661.

To provide for the preliminary education of medical students.

The degree of bachelor or doctor of medicine shall not be conferred in this State before the candidate has filed with the institution conferring it the certificate of the regents that three years before the date of the degree, or before or during his first year of medical study in this State, he has either graduated from a registered college, or satisfactorily completed not less than a three years' academic course in a registered academy or high school ; or had a preliminary education considered and accepted by the regents as fully equivalent ; or had passed regents' examinations in arithmetic, elementary English, geography, spelling, United States history, English composition, and physics. Students who had matriculated in a New York medical school before June 5th, 1890, shall be exempt from this preliminary education requirement, provided the degree be conferred before August 1st, 1895.

Notes on the Law.

1. The medical student certificate must be obtained during or prior to the first year of medical study in this State.

2. The regents will accept as fully equivalent to the required academic course any one of the following:

(*a*) A certificate of having successfully completed at least one full year's course of study in the collegiate department of any college or university registered by the regents as maintaining a satisfactory standard.

(*b*) A certificate of having passed in a registered institution examinations equivalent to the full collegiate course of the freshman year or to a completed three years' academic course.

(*c*) Regents' pass cards for any 50 counts.

Note.—Students matriculated in a registered medical school before May 9th, 1893, may offer regents' pass cards for any 20 counts, not including reading and writing.

(*d*) A certificate of having passed the matriculation examinations of any university in Great Britain or Ireland, or of having completed a course of study recognized as an equivalent therefor.

(*e*) A certificate of graduation from any registered gymnasium in Germany, Austria, or Russia.

(*f*) A certificate of the successful completion of a course of five years in a registered Italian *gimnasio* and three years in a *liceo*.

(*g*) The bachelor's degree in arts or science, or substantial equivalents from any registered institution in France or Spain.

(*h*) Any credential from a registered institution or from the government in any foreign state or country which represents the completion of a course of study equivalent to graduation from a registered New York high school or academy or from a registered Prussian gymnasium.

Extracts from Rules.

Printed question papers will be issued from the regents' office for each examination. Answers must be written in ink on both sides of letter paper, and arranged and numbered in the same order as the questions. Candidates should bring pen and ink. Paper and blotters will be supplied.

Seventy-five per cent of correct answers is required in all subjects.

Answer papers will be reviewed in the regents' office, and all papers below standard will be returned to the candidates. For those accepted, pass cards will be issued.

Pass Cards.—A regents' pass card is not limited in time; therefore it is not necessary to pass any regents' examination a second time.

Medical Student Certificate.—When all requirements are fulfilled the regents grant a medical student certificate.

On receiving the certificate, the candidate must send it to the secretary or recording officer of the university or college at which he intends to study medicine.

Candidates for medical student examinations should send notice at least ten days in advance, stating at what time and in what studies they wish to be examined, that required desk room may be provided at the most convenient place.

Candidates who fail to send this advance notice will be admitted only so far as there are unoccupied seats.

Certificates without Examinations —Candidates having credentials which can be accepted in place of an examination should send them to the Examination Department. They will be returned as soon as verified, and if accepted a medical student certificate will be sent with them. The certificate will be dated from receipt of credentials, so that the candidate will lose no time.

Communications.—All communications should be addressed to Examination Department, University of the State of New York, Albany, N. Y.

Calendar of Regents' Examinations.

For the academic years 1894–1895.

1894.	1895.
June 11–15	January 21–25
September 25–27	March 11–15
November 26–28	June 10–14

Note.—September examinations are for medical and law students only, and are held in New York, Albany, Syracuse and Buffalo. Other examinations are held at different points throughout the State. Particulars concerning these examinations may be obtained by addressing Examination Department, University of the State of New York, Albany, N. Y.

REQUIREMENTS FOR LICENSE TO PRACTICE MEDICINE IN NEW YORK STATE.

All requirements for admission should be completed at least one week before examinations. They are as follows:

1. Evidence that applicant is more than 21 years of age.
2. Certificates of moral character from not less than two physicians in good standing.
3. Evidence that applicant has the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State (medical student certificate).

First exemption: "Students who had matriculated in a New York medical school before June 5th, 1890, shall be exempt from this preliminary education requirement, provided the degree be conferred before August 1st, 1895."

4. Evidence that applicant "has studied medicine not less than three full years, including three satisfactory courses, in three

different academic years, in a medical school registered as maintaining at the time a satisfactory standard."

Second exemption: "The regents may in their discretion accept as the equivalent for any part of the 3d and 4th requirements evidence of five or more years' reputable practice of medicine, provided that such substitution be specified in the license."

5. Evidence that applicant "has received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practice medicine in some foreign country."

6. The candidate must pass examinations in anatomy, physiology and hygiene, chemistry, surgery, obstetrics, pathology and diagnosis, and therapeutics, practice, and materia medica. The questions "shall be the same for all candidates, except that in therapeutics, practice, and materia medica all the questions submitted to any candidate shall be chosen from those prepared by the board selected by that candidate and shall be in harmony with the tenets of that school as determined by its State board of medical examiners."

Third exemption: "Applicants examined and licensed by other State examining boards registered by the regents as maintaining standards not lower than those provided by this article, and applicants who matriculated in a New York State medical school before June 5th, 1890, and who receive the degree of M.D. from a registered medical school before August 1st, 1895, may without further examination, on payment of $10 to the regents, and on submitting such evidence as they may require, receive from them an indorsement of their licenses or diplomas conferring all rights and privileges of a regent's license issued after examination."

7. A fee of $25, payable in advance.

Notes on the Law.

1. Seventy-five per cent of correct answers is required in all subjects.

2. All subjects must be passed at the same examination.

Note.—When a candidate for license has been rejected in but *one* topic and his total average is above 80, at subsequent examinations he shall be examined only in the topic in which he originally failed to receive the required (75) per cent.

3. All examinations shall be exclusively in writing and in English.

4. Medical preparatory courses, as such courses are now taught in various scientific schools and colleges, cannot be accepted for one year of the three years' medical study required by the law.

Powers and Duties of County Clerks in Registering Licenses to Practice Medicine in New York State.

The laws relating to registration of physicians by county clerks were repealed May 9th, 1893, when the new law took effect. This law forbids the registration of any authority to practice medicine, except a license or diploma issued or indorsed as a license under seal by the University of the State of New York, or (in case of removal to another county of a physician already licensed) a certificate clearly showing that the original registration was of an authority issued or indorsed under seal by the regents.

To provide against penalties for illegal registration all other cases should be referred to the University of the State of New York, the only authority by which licenses can be issued after September 1st, 1891.

Address all communications, Examination Department, University of the State of New York, Albany.

O. C. PEROXIDE OF HYDROGEN.

TRADE

MARK.

A pure Peroxide of Hydrogen should contain so little acid as to be barely perceptible to the taste. It should retain its strength from four to six months without loss of oxygen, whether corked or uncorked; it should not be affected by changes of temperature, and in no application should it prove irritating.

Chemical and clinical tests prove O. C. Peroxide of Hydrogen to be a pure preparation, devoid of irritating qualities, non-acid and stable at all temperatures. It is certain in its action, and its absolute freedom from toxicity places it at the head of definite antiseptics and germicides.

THE OAKLAND CHEMICAL CO.,

89 and 91 South Fifth Avenue,

NEW YORK.

We will send samples of O. C. Peroxide of Hydrogen, and Monograph containing instructions for making solutions of H_2O_2 and glycerine for immediate use, to any physician willing to pay express charges.

Charity Organization Society of the City of New York. Offices in United Charities Building, 105 E. 22d st. Organized 1882. Objects: To be a centre of intercommunication between the various churches and charitable agencies in this city. To foster harmonious co-operation between them, and to check the evils of the overlapping of relief. To investigate thoroughly and without charge the cases of all applicants for relief which are referred to the Society for inquiry, and to send the persons having a legitimate interest in such cases full reports of the results of investigation. To provide visitors who shall personally attend cases needing counsel and advice. To obtain from the proper charities and charitable individuals suitable and adequate relief for deserving cases. To procure work for poor persons who are capable of being wholly or partially self-supporting. To repress mendicity by the above means and by the prosecution of impostors. To promote the general welfare of the poor by social and sanitary reforms, and by the inculcation of habits of providence and self-dependence. It is not an almsgiving society, and its work is completely severed from all questions of religion, politics, and nationality. It is a clearing-house of registration and experience for all the charitable activities of the metropolis. It has already instituted its system of exchange of information between its constituent societies (which include all which will avail themselves of its services), and returns are received from the Department of Public Charities and Correction, sixty-four of the leading relief societies, fifty-five prominent institutions, and two hundred and three church societies, while other societies are being frequently added. It has records of 175,000 families who have applied for relief during the last ten years. The Society has now on active duty, in its district work, in personal service for the poor, 25 paid agents, 175 members of district committees, and about 50 friendly visitors.

MEDICAL PRIZES.

PRIZE OF THE MEDICAL SOCIETY OF THE COUNTY OF NEW YORK.

Rules Governing the Award of the Prize.

1st. The prize shall consist of a gold medal 150 grammes in weight (or $100 in cash), which shall bear upon one side the seal of the Society, and on the other the following: Awarded as the annual prize, by the Medical Society of the County of New York, to ———— for an essay on ————.

2d. The essays shall be handed to the Committee on Prize Essays on or before the 1st of October in each year.

3d. Each essay shall be accompanied by a sealed envelope containing the name and address of the author and bearing on the outside the motto which is inscribed upon the essay.

4th. The writer of each essay is expected to present his dissertation in a plain and distinct handwriting, and with the pages bound in book form.

5th. Any clue by which the authorship of an essay is made known to the committee will debar such an essay from competition.

6th. Other things being equal, preference will be given to essays which exhibit original work on the part of the author.

7th. The Society does not consider itself as approving the doctrines contained in any of the essays to which the prize may be adjudged, and, in case of publication of a successful essay, the author shall be considered bound to print the above in connection therewith.

8th. The selection of the subject upon which to write will be left open to the competitors, but will be restricted to the field of what are called the departments of medical study.

9th. The Society will return to unsuccessful competitors their essays, if called for within six months after the award has been made.

10th. The committee is empowered not to award a prize in case none of the essays are worthy thereof.

11th. The prize is restricted to members of the Medical Society of the County of New York.

12th. The Society reserves to itself the right to require that the essay, for which a prize is awarded, shall be read before the Society previous to being placed at the disposal of the author (*vide* Committee on Prize Essays).

STEVENS TRIENNIAL PRIZE.

The prize is open for universal competition. Established by the late Alexander H. Stevens, M.D. Awarded triennially Amount, $200. The administration of the prize is entrusted to a commission consisting of the President of the College of Physicians and Surgeons (ex-officio), the President of the Alumni Association (ex-officio), and the Prof. of Physiology in the same institution.

The prize is awarded to no essay unless it includes the results of original research by the writer upon the subject chosen.

The next award of this prize will be at the Commencement of the College in May, 1897. Essays must be sent to the President of the College before January 1st of that year.

PRIZE OF THE MEDICAL SOCIETY OF THE STATE OF NEW YORK.

Merritt H. Cash Prize of $100 is offered for the best essay on any subject pertaining to the science or practice of medicine; the essay to be sent on or before December 1st of any year to any member of the Prize Committee, who are empowered to reject all judged unworthy of the award.

By vote of the Society this prize will be awarded only to members of the various County Medical Societies (*vide* Committee on Prize Essays of State Society).

EXTRACTS FROM THE BY-LAWS OF THE COUNTY MEDICAL SOCIETY.

"The annual meeting of the Society shall be held on the fourth Monday in October.

"Stated meetings shall be held on the fourth Monday of every month except in the months of June, July, August, and October.

"Nominations for the officers, censors, and delegates, to be elected at the annual meeting, shall be made at the stated meeting in September.

"Members whose dues are unpaid shall not be candidates for any official position in the Society, nor shall they be entitled to vote.

"Every candidate, before signing the By-Laws, shall be required to pay an initiation fee of two dollars, together with the current dues, within three months from the date of his election.

"No person shall be eligible for membership in this Society who is a member of a County Society not entitled to representation in the Medical Society of the State of New York.

"The Comitia Minora shall recommend no applicant for admission to membership unless he be a graduate from a medical college in good standing or a licentiate of a regular unsectarian State or County Medical Society of this or any other State; or, if his diploma or license be of sectarian character, unless the applicant declares in writing his or her abnegation of sectarian principles and practice."

Resolution adopted October 28th, 1889.

"*Resolved*, That, hereafter, members two years or more in arrears of dues shall have their names omitted from the published list of the Society; and that while thus in arrears such members shall receive neither the notices of the Society's meetings nor its publications."

The duration of human pregnancy is about 275 days. This is subject to some variation, and the longest period is still undetermined. As labor occurs in the larger proportion of cases between 270 and 290 days from the last menstruation, it is usual to reckon either from the first or last day of this period, taking as the mean 280 days, or a little over nine calendar months. For this approximate calculation the first day of the menstrual period may be used as being more readily ascertained. The table presents at a glance the beginning and end of 280 days for every day of the year. Find the date of menstruation in the upper line of the horizontal row, and the figure below, with the corresponding month, will indicate 280 days. In leap year, if the period of pregnancy includes February, the time for labor will be one day earlier than that given in the table.

CONTAGIOUS DISEASES.

REGULATIONS OF THE BOARD OF HEALTH.

SECTION 98.—1. Whenever it becomes known to the principal or teacher in charge of a school that a contagious disease prevails in a house, other than a tenement, in which a child or children attending the school lives or live, such child or children shall be immediately excluded from the school, and shall not be readmitted except as elsewhere in this section provided.

2. Whenever the principal or teacher in charge ascertains that a contagious disease other than small-pox or typhus fever exists in a tenement house, but on one floor only, a child or children living on another floor of the same house need not for this reason be excluded, but children thus situated must be questioned daily about their health and that of their respective families, and must be sent home at the first symptom of illness or the first intelligence of contagion in their families.

3. But if a contagious disease of any description exists on more than one floor of a tenement house, or if the disease existing on only one floor be small-pox or typhus fever, all children living in the house must be promptly excluded from the school.

4. Children excluded in pursuance of the above rules shall not be again permitted to attend school—

In case of scarlet fever, until three weeks after the *beginning* of the last case, on the floor or in the house, according to whether the exclusion has applied to the floor or an entire house under the above rules.

In case of measles, until two weeks after the *beginning* of the last case, on the floor or in the house, according to the extent of clusion.

In case of diphtheria, until one week after the *termination* of the last case, on the floor or in the house, according to the exclusion.

In case of scarlet fever, measles, or diphtheria, until a certificate of the Board of Health is produced, stating that the apartments, bedding, and clothing affected by contagion have been properly disinfected.

If the disease be small-pox or typhus fever, children who have been in such a case excluded must not resume their attendance without producing a certificate from the Board of Health stating it is safe for them to do so.

5. New scholars applying for admission, living in houses or on floors where a contagious disease prevails must be admitted or excluded in compliance with the above rules.

6. Principals and teachers in charge are required to communicate to the Clerk of the Board of Education any information received by them relevant to this subject not known to be in his possession.

7. Hereafter all children attending the schools under the control of this Board, and residing in orphan asylums, infirmaries, homes, nurseries, or other institutions, shall regularly furnish to their respective principals weekly certificates signed by a duly licensed and competent physician of good standing, to the effect that during the week preceding the date of such certificate there were no contagious or infectious diseases of any kind in such asylum, infirmary, home, nursery, or institution, and no principal shall allow the attendance at school of any such children unless such certificate herein required is furnished as aforesaid ; and all such certificates shall be preserved by said principals for one year.

8. If the certificate should show that there was any such disease in such orphan asylum, infirmary, home, nursery, or institution, or if any principal should, from any other source, ascertain the existence of any such disease in any such orphan asylum, infirmary, home, nursery, or institution, such principal shall forthwith dismiss from attendance all pupils residing in such orphan asylum, infirmary, home, nursery, or institution, and such pupils shall not be allowed to attend until authorized by the committee on By-Laws, Elections, and Qualifications of the Board of Education.

EMPIRE GOLD & SILVER PLATING WORKS.

FRITZ MORRIS, PROP.

Gold, Silver and Nickel Plating in all their Branches,

75 and 77 NASSAU ST., (Ground Floor, Rear.)

DOCTOR: Has it ever occurred to you that you can save money on your instruments? How? By having them replated in silver or nickel,

AT LESS THAN ONE-THIRD

of what new instruments would cost you. I make a specialty of refinishing Surgical Instruments, and a trial order will satisfy you as to workmanship and price.

Messrs. Van Horn & Ellison, 41st St. and Park Ave., and **Mr. H. A. Cassebeer,** 72d St. and Columbus Ave., have kindly consented to receive work or orders for me.

Very respectfully yours,

FRITZ MORRIS.

I also replate and refinish Lamps, Bric-à-Brac, Bronzes, Ornaments, and all kinds of Silverware and Jewelry.

"Diet His Sickness."

—*Comedy of Errors.*

In years agone "dieting" meant something very different from the modern acceptation of the term:

Then it meant
STARVING.
Now it means
RECONSTRUCTING.

A weakened nutrition affords a favorable opportunity for the development of pathogenic processes. Therefore in order to circumvent disease, one must fan the vital flame until it becomes a vigorous fire.

LIQUID PEPTONOIDS possesses all the essential qualities requisite for the enhancement of nutrition. It is ready for immediate absorption and appropriation, and will largely aid in the formation of better blood, muscle, and nerve.

When this point is reached, Doctor, you can say with Shakespeare:

"There's nothing ill can dwell in such a temple."

This College is now in the twentieth year of its existence. Many Professors of its faculty have been engaged in teaching veterinary science for *over twenty-five years*, and it offers to students advantages unequalled by any other college.

The system of instruction embraces a thorough Didactic and Clinical Course of three years' attendance. The American Veterinary Hospital, which is a branch of the College, has treated since its opening over 50,000 cases. It is utilized for the clinical instruction of matriculates and affords unrivalled facilities.

The regular term opens in the beginning of October, and closes at end of March. For further information or catalogue address A. LIAUTARD, M.D., V.M., Dean of the Faculty, 139 and 141 West 54th St.

REQUIREMENTS FOR GRADUATION.

CHAPTER 443, LAWS OF 1888.

SECTION 5. The said trustees and their successors shall have the power to confer the degree of Doctor of Veterinary Surgery, and issue veterinary diplomas to only such students as shall have attained the age of twenty-one years, shall be of good moral character, shall have received a good English education, and pursued at least a full three years' course of medical and veterinary study after the age of eighteen years, *including* attendance upon *three regular sessions of medical and veterinary lectures* in a regularly incorporated veterinary college or veterinary or medical department of a college or university, the last of which sessions of study shall have been at said American Veterinary College, and shall have passed the examinations prescribed by the rules and regulations of the American Veterinary College.

Graduates of incorporated *medical* colleges and graduates of veterinary medicine will be required to attend one regular session of lectures in this College.

Graduates of agricultural colleges will have an allowance made them for such branches as they may have attended on subjects embraced in the curriculum of this College (viz., the fees of such lectures), provided they can pass a satisfactory examination on said branches *immediately after matriculating.* The same privileges are granted to regular graduates of colleges of pharmacy.

THE IDEAL FOOD.

A preparation of Powdered Milk so treated during the process of manufacture that it is the easiest digested food ever produced. It is very palatable and nutritious, and will be relished and retained where all other kinds of nourishment are rejected.

CARNRICK'S KUMYSGEN is especially valuable in the nourishment of invalids and persons suffering from Wasting Diseases, Consumption, Diabetes, Bright's Disease, Dyspepsia, Catarrh of the Stomach and Bowels, Cholera Infantum, and all Irritable Conditions of the Stomach, such as Persistent Vomiting, Gastritis, Cancer and Ulceration of the Stomach, etc It increases weight strength and flesh far more rapidly than any other food, or Cod Liver Oil.

It is the consummation of all practical and experimental ideas in the production of a perfect food for invalids and the sick. Millions of dollars have been expended in efforts to reach this degree of perfection. Until KUMYSGEN was produced, no food for the above purposes had been presented in any part of the world but what contained one or more objections. Some were not nutritious, others not palatable, others were difficult to digest, and all were expensive to use. None of these objections apply to KUMYSGEN.

SEND FOR LITERATURE.

A Regular bottle of KUMYSGEN will be sent any Physician prepaid, on receipt of seventy-five cents, which is about one-half its retail price. KUMYSGEN is now put up only in Regular and Hospital sizes. Every bottle of the Regular size is an improved Siphon bottle of larger size than formerly.

KUMYSGEN is much less expensive than ordinary Liquid Kumyss to prescribe. and its keeping qualities are perfect, while the latter spoils in a very short time.

IN OBSTINATE CHRONIC DISEASES,

A remedy which is highly recommended by many representative physicians is freely prescribed by the profession.

That water (when judiciously used and aided by massage, etc.) is not more frequently utilized, is doubtless due to the difficulty in obtaining its proper application.

To remove this difficulty the Hydriatric Institute receives patients, who may be sent with prescriptions, or with a diagnosis upon which a well-known Hydrotherapist may direct the hydriatric measures indicated.

All cases are expected to remain under the care of their own physicians, unless otherwise desired by the latter.

Over 2,000 treatments (in many cases with excellent results) have been given in Neurasthenia and other nervous diseases, Chronic Rheumatism, Phthisis, Anaemia, etc.

Patients may return home immediately after each treatment.

"Each hath his place and function to attend."—*Shakespeare.*

We again cite our much-quoted, but ever fresh authority, this time to illustrate the principle upon which LACTOPEPTINE is prepared, and to put in evidence the reason why it is so manifestly superior to Pepsin alone. Pepsin acts only upon proteid food stuffs, Pancreatin only upon starches and fats; when administered together and in conjunction with Ptyalin and Lactic and Hydrochloric acids in a physiologically proportioned and blended combination, as in LACTOPEPTINE, all classes of food are alike subjected to its potent digestive influence. Each place is filled and each function is attended.

You will probably say, Doctor, "this is plausible reasoning." Yes, not only plausible, but true. You can prove its truthfulness by sending for sample.

PANOPEPTON

Bread and Beef Peptone

Panopepton is the entire edible substance of prime, lean beef and best wheat flour, thoroughly cooked, properly digested, sterilised and concentrated in vacuo.

Panopepton is the food par excellence in all conditions where a fluid, quickly assimilable, agreeable and comprehensive nutriment is required.

FAIRCHILD'S ESSENCE OF PEPSINE

Is the most active, most agreeable, most successful of all fluid pepsin preparations.

As a pharmaceutical product and as a remedy, it is far superior, more skillfully made and more effective than the whole class of "elixirs, wines," and similar fluid preparations.

It contains the peptic and the rennet ferments in an exceedingly active form and in a combination so agreeable and grateful to the stomach as to render it often immediately effective in extreme cases of dyspepsia, with intolerance of food, flatulence, etc.

In many cases it is found far more effective than pepsin in any other form.
